

RIO Advance Service T&Cs

(the "Service T&Cs")

1 Subject

These Service T&Cs constitute a stand-alone agreement between TB Digital Services GmbH ("TBDS") and its user ("the user"). The Service T&Cs regulate the provision of the service described in section 2 by TBDS to the user ("the TBDS services") through the platform. They constitute a stand-alone agreement in addition to the Platform T&Cs already concluded between the user and TBDS. Unless otherwise expressly stipulated in these Service T&Cs, the provisions of the Platform T&Cs already concluded between the user and TBDS shall apply to these Service T&Cs. The terms defined in the Platform T&Cs shall also apply to these Service T&Cs. The Service T&Cs are agreed via the platform in accordance with the provisions in sections 2.1 and 2.3 of the Platform T&Cs.

2 TBDS service and technical requirements

2.1 TBDS shall provide the following TBDS service to the user specified in the service specification during the term of these Service T&Cs:

Designation	Short description
RIO Advance	<p>RIO Advance is a stand-alone service that makes it possible to extend the retention time and accessibility of data from the RIO Essentials service to a maximum of 25 months. The same applies to data from the MAN Bridge service for customers with a TBM2 installed.</p> <p>RIO Advance can work in combination with other RIO services that are ordered, also making it possible to extend retention time and data access within the respective service to a maximum of 25 months.</p>

Important note: With regard to the requirements under data protection law, we refer expressly to section 8 of the Platform T&Cs. The user shall remain responsible under data protection law for data processing within the scope of the commissioned data processing activities by TBDS. Additionally, the user guarantees that it shall be permissible to process the personal data of the relevant parties (driver and other persons if necessary). This includes the user's duty to fully inform the relevant parties and encompasses the establishment of a legal basis under data protection law.

The latest version of the detailed service specification, in addition to the technical requirements and fee payable for using the service, can be viewed on the platform at <https://rio.cloud>.

2.2 The availability of the platform for the aforementioned service to be provided via it shall be based on section 3.2 of the Platform T&Cs.

3 Fee

- 3.1** The fee payable for the TBDS service shall be based on the rates listed on the platform at <https://rio.cloud>, and is subject to statutory sales tax (VAT). The fee shall be based on the number of vehicles registered for the service by the user. On being registered by the user, the vehicle shall be covered by the service, and the service provision shall be charged on a daily basis. For months in which the TBDS service was contracted for only a portion of the month, the fee shall be charged pro rata temporis.
- 3.2** On receipt of invoice from TBDS, the user shall make payment to TBDS's payment service provider as specified in section 4.2 of the Platform T&Cs. This payment shall fulfil the user's obligation to TBDS.
- 3.3** If the user is in default despite previous appropriate written warnings from TBDS, TBDS may, after giving further advance notice of at least one (1) week, suspend its provision of the TBDS service under these Service T&Cs until payment is received.

4 Amendments

- 4.1** Amendments to the Service T&Cs shall require the agreement of both parties, unless otherwise stipulated in section 4.
- 4.2** As part of its provision of the TBDS service, TBDS may make appropriate technical modifications, particularly to the extent that these are necessary to improve functionality or comply with legal requirements.
- 4.3** The user shall be notified in writing of reasonable changes to the services and appropriate price increases as part of the provision of the TBDS service, and shall be given the chance to object to any change within six (6) weeks. If no objection is made (in writing or by e-mail) to a reasonable change to a service/price increase within that six (6) week period, the change to the service/price increase shall be deemed to have been accepted, provided the user was made aware of this legal consequence when they were notified of the change. If the user objects to a change to the service or increase in fees, TBDS shall be entitled to immediately terminate the service provision to the user under the terms of the Service T&Cs. Furthermore, the user shall be entitled to effect ordinary termination of the Service T&Cs at any time.

5 Warranty and liability

5.1 Warranty

- 5.1.1** The user shall inform TBDS immediately of any defect in the TBDS service. TBDS shall rectify any defects in the TBDS service within a reasonable period of time. Should TBDS

fail to rectify a defect within a reasonable period of time on two (2) occasions, the user shall be entitled to effect extraordinary termination of these Service T&Cs.

Other claims by the user shall be governed in accordance with section 5.2.

- 5.1.2 Claims for defects shall be excluded where the cause lies with the user or one of its agents in performance.

5.2 Liability

TBDS shall be liable for loss or damage that is attributable to intentional acts and/or gross negligence on the part of TBDS or its agents in performance. TBDS shall only be liable for loss or damage resulting from ordinary negligence on the part of TBDS or its agents in performance if a cardinal obligation has been breached. Cardinal obligations are essential contractual obligations that ensure due implementation of the contract, observance of which the user relied upon, and was entitled to do so.

In the event of a breach of these cardinal obligations caused by ordinary negligence, TBDS's liability shall be limited to typically foreseeable loss or damage, though limited to a maximum of 100% of the annual fee.

Otherwise, TBDS's liability for ordinary negligence shall be excluded.

5.3 Other exclusions

- 5.3.1 TBDS shall not be liable for the proper condition of vehicles belonging to the user for which the TBDS service is being provided. The TBDS service is merely intended to provide support to the user; responsibility for complying with legislation and for the use and condition of the vehicles shall remain with the owner or driver as appropriate.
- 5.3.1 The provision of RIO boxes and/or RIO transmitter units is not covered by these Service T&Cs. No warranty shall be provided and no liability accepted under the terms of these Service T&Cs in this regard.
- 5.3.2 Likewise, no warranty shall be provided and/or no liability accepted under the terms of these Service T&Cs for defective TBDS services (particularly for missing or incorrect data) and/or for damages resulting from malfunctions and/or breakdowns of vehicles, RIO boxes and/or RIO transmitter units, or from the incorrect data input by the user.

6 Term and termination

6.1 Term

These Service T&Cs are concluded for an indefinite period.

6.2 Termination

- 6.2.1 The user shall be entitled to effect ordinary termination of these Service T&Cs at any time without giving advance notice to TBDS. The user may also terminate these Service T&Cs by simply deactivating the service on the platform. After any such deactivation, reactivating the service shall take a minimum of four (4) working days.
- 6.2.2 TBDS shall be entitled to effect ordinary termination of the Service T&Cs, subject to a notice period of three (3) months to the end of any month.
- 6.2.3 The right to termination for cause remains unaffected for both parties.
- 6.2.4 Termination of these Service T&Cs, for whatever reason, shall not affect the Platform T&Cs or any other T&Cs agreed in relation to other services. However, if the Platform T&Cs are terminated, for whatever reason, these Service T&Cs shall also come to an end at the same time.
- 6.2.5 The provision of the TBDS service under these Service T&Cs is dependent on the conclusion and continued applicability of the following other Service T&Cs (with TBDS or third-party providers): MAN Bridge (only applies to customers with a TBM2 installed on-board). If these other Service T&Cs are terminated for whatever reason, these Service T&Cs shall also come to an end at the same time.

7 Miscellaneous

- 7.1 The "Other provisions" set out in section 11 of the Platform T&Cs shall apply.
- 7.2 The user shall not be entitled to transfer rights and/or obligations under these Service T&Cs, either in whole or in part, to third parties without the prior written consent of TBDS.
